Natan Paradise

Adiv 8, Liat 5

Law Professor, William Mitchell College of Law

Well, the big event was my diagnosis with breast cancer in December 1996. I made a few trips to the operating room, then underwent chemotherapy for 9 months. I lost all my hair, threw up. But I'm healthy now. I've been lifting weights for 2 years, running some. In the middle of the chemo, we moved to Minnesota, where I am a law professor teaching tax and property law. I am up for tenure in December. In February I went skiing in Vail for 5 days -- first time in 10 years. It turns out I can still do it.

Carmichael, Eliza

1431 NW 20th St., Corvallis, OR 97330

channell@bserv.com

Retreat Chaplain for Grade 8 students

I was a nun in a cloistered monastery in Hollywood for 13 years (after working two years in film), then in a monastery outside Detroit for 3 years. I left religious life in 1996 and then worked 64 days on a factory trawler fishing in the Bering Sea to earn some "starting money" (big mistake, low pay, wretched work, but interesting stories to tell). Then I visited friends in Canada, like it, found permanent work and went through the immense immigration process. Am a permanent resident now in Canada. Just finished my first year as a retreat chaplain for the Waterloo Catholic School Board. I worked with 20 different schools, taking groups of 20 to 60 students on a 3 to 5 day retreat/camp/growth experience. It's been great.

John Craven

Katie 16

CH2M Hill – Graphics

I quit my old job at the OSU Bookstore after some 20 years and decided to try something radically different, so I went to work at CH2M HILL. My daughter is now 16 and about to be a Junior at CHS. We got a new Corgi puppy this winter and are having fun teaching her tricks and are trying some dog agility. I am leading my daughter's horse club of 27 members which is a huge, but fun, job. My husband John still works for Oregon University System here at OSU. My little sister became a grandmother, so I guess that makes me a Great Aunt. I enjoy quilting and gardening but have little time for either...Someday.....I will have time!!

(Douglass), Crystall Sommerfeld

1931 Caddoa Drive, Loveland, CO 80538

970-635-0089

I worked at Hewlett-Packard for 20 years, then decided to quit and open my own business doing live cell analysis. I have been doing this for 3 years now.

Drake, Bob

Philadelphia, PA

610-891-0696

Senior Counsel - Labor and Employment Law - CIGNA

amybobdr@aol.com & Robert.Drake@Cigna.com

Amy

Samantha 15, Jessica 12, Hannah 6

I graduated from Reed College back in 1979 and after floating around for a year or two, I moved east to Philadelphia, Pa., where I married Amy Kurland - having met her in college. I worked for about six years as a medical editor and writer first for ABC News then for a small medical research/publishing house. (I got here just in time to use my new press credentials to see the Phillies win the 1980 World Series)

In 1982, Amy got her law degree from Rutgers University and began practice as an Assistant U.S. Attorney in the Eastern District of Pennsylvania -- she is still there doing complex fraud and public corruption criminal prosecution. Eventually I, too, went to law school and graduated from Temple University School of Law in 1989. Upon passing the Pennsylvania bar exam I clerked for the Chief U.S. District Court Judge for the Eastern District of Pa. then became an associate in the labor and employment litigation department of a big old Philadelphia law firm called Montgomery McCracken Walker & Rhoads. In 1992, I left MMWR and moved in-house to a position in the office of Corporate Counsel for CIGNA Corporation. I am now Senior Counsel - Labor and Employment Law.

While I was in law school Amy and I had the first of our three daughters. Samantha is now a freshman at Strath Haven High School, where she plays soccer, basketball and lacrosse. Just before I graduated from law school, we had our second, Jessica, who is now 12, and in Strath Haven Middle School. She is also a major jock. Finally, to celebrate the Phillies' next World Series, Amy and I had our third daughter Hannah. She is now 6 years old and is in first grade. We have a house in the woods, a minivan and a big, stupid golden retriever/Labrador type mutt. Life is good!

Sorry I missed you all at the reunion. Since my parents still live in Corvallis and my sisters are in Bend and Tacoma respectively, I'm sure I'll be out to Oregon before too long.

Elliott, Taraleen

1615 Pioneer St., Philomath, OR 97370

stymer@proaxis.com

Russ Stymer

Maggie; Marshall

Industrial Real Estate Appraiser

Not much has changed in the past five years. I'm still working for the Oregon Dept. of Revenue in the Property Tax Division. I've been doing real estate appraisal for the past 19 years. I spent six years at the Benton County Assessor's Office, moved to New Hampshire and did fee appraisal work there, moved back to Philomath and got a job with the state and I've been there ever since. I specialize in appraising wood products (sawmills, etc.) and paper mills.

On the home front life is busy. Russ is still working as an electrician.

Maggie will be in 5th grade and Marshall in 3rd. They both play baseball/softball and are into horses. I coached Maggie's softball team this year and Marshall's last year. Maggie is in Pony Club with Pati Craven as the club leader :-)) and Pati's daughter Katie babysits for us on occasion.

Laurie Staudinger (South Salem HS)

Jesse 11; Tyler 9

Designer/Builder for The Neil Kelly Company

I still have a wonderful healthy active loving family. All four of us climbed Brokentop last year and both boys made it to the top of Middle Sister two years ago, when the boys were 7 and 9. We will make two or three climbs yet this year. I am a year round soccer coach with a team that has for the most part stayed together for the last 6 years. "My boys can play football when their thighs are bigger than their knees."

At work: I have had several highly visible and published projects, as well as several that have allowed people to stay in their homes, and neighborhoods. My team is currently working on home, listed on National Historic Registry, using the "Natural-Step" approach to sustainable building practices, that will be recognized nationally.

Civically: I have been a member or chaired of several Portland Public Schools' district wide committees, that are in fact are reshaping the way PPS operates and the quality of education our children receive.

Not to discount what a great time I had with everyone at Corvallis HS and I loved high school; "This is the best time of my life."

Mike

Ashley, Mitch

Education Assistant

I am an Educational Assistant in the Supported Ed. Dept. at a local elementary school teaching 40+ students with learning challenges. I am also writing, having taken courses for the past two years. I was a presenter at this year's Central Oregon Writing Festival and have written several pieces, both fiction and non-fiction.

My husband, Mike Porterfield (we've been married almost 19 years) is a systems analyst for Deschutes County. Our daughter Ashley, is entering her junior at Mt. View High School and is involved as a section editor of the school paper and a two-year letterman in both track and academics. Our son Mitch is entering his freshman year, having finished his middle school career as the outstanding concert band and jazz band member. This is unusual for a percussionist, so we were doubly proud of him. We love to travel, camp, and spent time together, realizing all too soon we will enter the next phase of life--Parents of College Kids.

Lee

Jennifer 28; David 26

Research and Development Manager Lamb-Weston (Frozen Food Manufacturer)

The biggest highlight of the last 5 years has been seeing both of the kids finish college and get productive jobs in their chosen fields. Jenn is a child development specialist working with developmentally disabled kids in Los Angeles, and Davis is a therapist in Seattle.

Lee and I finished building our "dream home" in the San Juan Islands--of course now we have been working even harder over here in Eastern Washington to pay for it! Our house is on an island with no ferry service, so all of our building materials were either barged in our hauled piece by piece on our 25-foot boat. We even towed a septic tank behind the boat for about 5 miles from Friday Harbor, then hoisted it out of the water onto the pier with a big winch. Quite the entertainment for the whole island! To celebrate the millenium, we took a cruise to Australia and New Zealand and had two New Year's parties--one on either side of the international date line. We were among the first people in the world to see the new millennium then were among the last to say goodbye to the old millenium the next day. No worries about Y2K where we were. I still love my job developing new food products and especially enjoy getting to work next to Mike Megale almost every day!

Ott, Leanna

Jo Ellen

Eric (7) & Amy (5)

Defense Consultant for Booz Allen & Hamilton

I had a great time at our 20th but unfortunately wasn't able to attend our 25th. I retired from the Navy after 23 years. It was an exciting career that took me all over the world. It's nice to be settled in one place so the kids can do their thing. Our time is spent shuttling the kids to the next sporting event - the Reynolds family don't have an off season with the likes of football, basketball, soccer and baseball. I have the time to coach the kids which brings back many wonderful memories of all the great coaches I had when growing up in Corvallis. What's next? Watch the kids grow and enjoy them as much as we can. I look forward to seeing you all for the 30th reunion!! Does anyone have an email address for Dave Johnson??

Just been working at the dealership and racing my Nissan 240SX in the Nasport Series on the west coast. My wife and I have four dogs and two cats and enjoy bowling and golf.

Brenda

Slater 10; Tanner 7

President, Zsmart.com

After 16 years at KXL in Portland, I left to start my own internet business. And since I can do it from anywhere, we chose Sisters, OR for more sunshine, skiing, mountain biking, fishing, more time with our boys before they are all grown-up, that's what we've been doing and lovin' it. Brenda's books are selling all over the world (find her at amazon.com under Brenda Gates Smith). It's been an exciting and changing last 5 years.

Gary

Paul 17, Matt 14

Teacher

We enjoy being avid supporters of our sons in their athletic and musical endeavors. Building a new home was both challenging and rewarding. Landscaping and my feeble attempt at decorating keeps us busy. Cleaning is a constant battle but no more than keeping food supplied for the multitude of teenagers that seem to swell our family ranks. As much as I couldn't wait to leave the books behind as a college undergrad, I surprise myself by continuously going back for more. I was pleased to receive my Master's degree Phi Beta Kappa There have been a number of fun hosting duties that developed when Gary became the Executive Director for our state High School Activities Association. Come Visit Kansas.

I have been working as a Certified Medical Assistant at an OB/GYN office for almost 14 years, and get a lot of pleasure and rewards from my career. It's a great feeling to watch new moms blossom during their pregnancy, and begin a totally new era in their lives! I missed our 20th class reunion due to the fact that the same night it started I was returning from a 6 wk vacation in Europe. We travelled throughout Sweden, Denmark, Finland, and even had the opportunity to visit St. Petersburg, Russia. It was an awesome experience, and a real learning one for us all.

Two years later I again travelled overseas, this time to spend 2 wks in Amsterdam. What a wonderful and cosmopolitan city. My husband, Gary, was diagnosed with Multiple Sclerosis the same year our daughter was born. Last July he retired from the rat-race due to his chronic disease. It has been a major transition for the Gilbert clan, but have been blessed with so much love and support. And it's been great for the kids to have a full-time parent at home, they have all bonded in a special way. And I enjoy always having clean laundry (he does it so much better than me!), and rarely having to do housework. Who could ask for anything more? In March of this year, I had a very frightening experience. I was diagnosed with a dissected carotid artery. It had literally torn, causing a blood clot to form in another blood vessel. I spent 6 days in the hospital and another 8 wks recuperating at home. I have a whole new outlook on life, as I am still breathing this fine Oregon air! We have been doing a lot of renovations on our house nestled in the Multnomah Village area of Portland. It's amazing what a new roof, paint, and deck can do! And the inside looks pretty fantastic with newly remodeled bathroom. During my illness at home, we had many family and friends come and spend time taking care of us all, and it even included doing some indoor painting of rooms. I will miss seeing all of you this year, and will think of you during the weekend with fond memories and many smiles. I send each and every one of you a wish for peace within yourselves and don't ever forget the wonderful sound of laughter! Take care!

Mark Ruth Ann 4; (step-daughter)Jamie 22

Radio Personality (Rockin' Robin Sanders)

1. The birth of my only biological child, Ruthie, 12/28/95. I have a 22 year old step daughter.
2. I became a well known radio personality in Denver after 6 years on the "Oldies" radio station, KOOL 105. Then I went on to spend 8 years with Jones Satellite Radio Networks, as an anchor personality, pioneering the "Oldies" network, and hosting my own morning syndicated radio show, heard Monday through Friday, "live", coast to coast in over 150 cities. I was chosen to do a week long "live" broadcast from the radio booth, high atop the newly opened, Rock N Roll Hall of Fame in Cleveland, OH. I hosted live interviews with famous Rock N Roll Stars and Legends from Chubby Checker to Dick Clark. These interviews were heard on my syndicated show, coast to coast. After great reviews, I was honored with my own Spot in the Radio Hall of Fame. If you visit the Rock N Roll Hall of Fame in Cleveland, check out the Radio Hall of Fame, to this day, you can dial in and hear me doing interviews with the stars. I was also presented with my own C.D. of the interviews, "The Best of Rockin' Robin".

I stunned everyone at the Network when I turned in my resignation Sept. of 1998, so my husband could pursue a great business opportunity in the computer industry in the Portland area. At this point, I decided to slow down and take some time off to be with Ruthie. I was also excited at the

prospect of getting closer to home again in the great Northwest.

3. We have a house and barn on 5 beautiful acres on top of Green Mountain in Woodland, WA., with a 30 mile view of the Columbia River, we can see the high rises in downtown Portland from our deck.
4. I was hired by 97.1 KISN-FM, the Oldies station in Portland, where you can now listen to me, "Rockin' Robin Sanders".

My husband Mark is an iPlanet e-commerce Systems Engineer for Sun Microsystems in Portland

Architect

Highlights of the last 5 years? They haven't been particularly easy...divorce in 1997 and all the upheaval that goes along with that. I continue to have my own architectural business in Iowa City, it continues to grow annually both in the number of projects and the amount of construction dollars. I actually have employees. I focus mainly on Historical Preservation (throughout the Midwest) and custom residential design: new homes and remodels. I'm working with the "Not So Big House" concept. (see the website of the same name) I will soon be working on a state of the art "new town planning development" for Iowa City that will keep me busy for the next 4 years. For a hobby I buy and restore old houses. More important than my professional life, my great success has been my children. They keep me busy and laughing.

Sal Romeo

Brittany 29, Alexandra 8, Michael 7, Erica 2 1/2, and Christopher 2 _

Ophthalmologist (MD)

Let's see...I've increased my "brood" from, 3 to 5 kids...totally unexpectedly with the birth of twins (2/6/98). Everything becomes intensely harder going from 3 to 5 kids because now we need room for 7 if we're all to go anywhere together. Dining tables don't fit anymore, regular cars don't carry us all and going anywhere (like McDonald's or Disney World) is a major expense. I need to use 17 or 18

eggs during breakfast if I want to feed all the hungry mouths! My career continues to keep me more than busy. Ophthalmology is such a rewarding specialty to practice medicine/surgery in. With all the new information and discoveries and the exploding increase in Refractive Surgery, I am continually giving seminars and national meetings to keep abreast. There have also been tremendous advances in Glaucoma, Cataract, & Macular (?) Degeneration. All this does not leave me much free time for anything else including sleep, but if I were to have any I would spend it travelling, skiing, learning to use the computer, and gardening/landscaping. Maybe if another 25 years I will be able to write that my life has more free time...I hope.
